FATE CONTINUES TO SERVE

FATE Continues to Serve...Although the coronavirus has shut down most business, FATE continues to provide advocacy for those in need. For years, FATE has contacted State agencies monitoring nursing homes that infection controls were not being enforced as the regulators were not citing facilities for the complaints FATE files against nursing homes for episodes such as urinals on dinner trays, soiled diaper under patient beds, mold in bathrooms, etc.

Acute hospitals have also been irresponsible for discharged patients to nursing homes that were quarantined in the acute hospitals, yet not quarantined in the nursing homes. No wonder the most coronavirus deaths have been in this country's nursing homes. This is a wake-up call that this industry must be held be accountable for not only lack of infection control, but harming the patients.

On 5/7/2020, the State of California will begin to host nursing home infection prevention calls to discuss the virus. For those interested in the update session, dial in 1-877-226-8163 and use access code 513711. Meanwhile, FATE is here to serve and, if you need help, call us at (916)481-8558.
